

## The preliminary results of the Estonian Presidency of the Council of the European Union as of 21 December 2017

During the Estonian Presidency of the Council of the EU, we worked with a total of 377 drafts, including legislative initiatives, strategies and communications, Estonia also brought new topics to the agenda.

A total of 31 Council meetings took place in Brussels and Luxembourg, and another 10 informal ministerial meetings took place in Tallinn. A further 10 high-level conferences and 226 expert-level meetings were also held.

Of the summits that took place during the Estonian Presidency, the Tallinn Digital Summit, the Eastern Partnership summit in Brussels and the African Union – EU Summit in Cote d'Ivoire deserve to be highlighted.

The ambassadors of Coreper I met 26 times, while Coreper II meetings (including Article 50 meetings) were held 30 times. Trilogues were held 137 times.

During the Estonian Presidency, we agreed on 38 general approaches (a common position of the member states in the Council) and concluded 36 political agreements with the European Parliament. A total of 36 political conclusions were approved in the Council of Ministers.

Below is the initial overview of the main achievements and results. A more detailed overview of the agreements and results will be presented to the Government, the Parliament of Estonia (Riigikogu) and to the public in the end of January 2018 the latest.

Regulations, directives, initiatives	Result	Content
<b>An Open and Innovative European Economy</b>		
Services package (European services e-card; services notification procedure; proportionality test)	Over to the Bulgarian Presidency	The proposed measures aim to make it easier for service providers to navigate administrative formalities, and to help member states identify overly burdensome or outdated requirements on professionals operating domestically or across borders.
EU-Japan Free Trade Agreement	Text agreed, finalisation will take place during the Bulgarian Presidency	The biggest bilateral trade agreement ever negotiated by the European Union, opens up the Japanese market for EU food and agriculture products as well as services and public procurements. EU exports to Japan can increase by as much as 32%.
EU Association Agreement with Chile	Mandate agreed and negotiations started	Modern association agreement will cover a broad range of issues, such as trade, investments, social issues, digital policy, decent employment, education and space.
Free Trade Agreements with New Zealand and Australia (mandate for starting negotiations)	Over to the Bulgarian Presidency	For the EU, the agreements could potentially generate a significant addition to the GDP (€4.9 billion) in the long term, increasing economic welfare by €4.8 billion.
Trade Defence Instruments	Provisional political agreement with EP	Ensures that fair competition, without distortions, is maintained between domestic and foreign producers.
Anti-dumping regulation	The act enters into force on 20 Dec 2017	Maintains the EU's capacity to protect its producers against unfair trade practices.

Regulations, directives, initiatives	Result	Content

A roadmap for the next steps in eGovernment development over the next five years have been agreed on, providing direction at both the national and EU levels.
Single digital gateway regulation	Agreed at the Council of the European Union	Any procedure currently available online for domestic users will be accessible, through a single digital entry point, to users from other member states. A total of 13 key administrative procedures will have to be made available online (incl. requests for a birth certificate, to register a car, start a business, or to register for social security benefits).

Regulations, directives, initiatives	Result	Content
European Electronic Communications Code	Agreed at the Council of the European Union	New rules for the electronic communications sector that will prepare Europe for the 5G era by promoting investment, competition, consumer protection, and the development of new services. On 18 July, EU ministers signed a 5G declaration 'Making 5G a success for Europe' confirming their willingness to position Europe as the global market leader for 5G.
Regulation establishing the Body of European Regulators for Electronic Communications (BEREC)	Agreed at the Council of the European Union	The main goal of BEREC is to ensure the consistent implementation of telecom rules across the EU and provides technical expertise to national regulators and EU institutions.
Digitalisation of transport	Council conclusions	Underlines the benefits of digital technologies to eliminate the obstacles to achieve a seamless and more effective multimodal transport system in Europe. Refers to the free movement of data as a 'fifth freedom' of the European Union.
<b>E-commerce package:</b>		
Geo-blocking regulation	Political agreement with EP	The regulation will remove barriers to e-commerce by ending the discriminatory practice preventing online customers from accessing and purchasing products or services from a website based in another member state.
Parcel delivery regulation	Provisional political agreement with EP	The aim is to increase price transparency and regulatory oversight of cross-border parcel delivery services so that consumers and retailers can benefit from affordable deliveries and convenient return options across the EU.
<b>Copyright reform:</b>		
Directive on copyright in the digital single market	Over to the Bulgarian Presidency	To facilitate cross-border access to a wider variety of digital content protected by copyright while ensuring the functioning of a fair market in terms of copyright.
Regulation on broadcasting organisations (CabSat)	Member state agreement for starting negotiations with EP	Provides for the wider dissemination of television and radio programmes originating in other member states for the benefit of users across the EU.

Regulations, directives, initiatives	Result	Content
Audiovisual Media Services Directive	Over to the Bulgarian Presidency	The aim is to create a clearer legal space for the development and distribution of audiovisual media services in the EU single market.
<b>Contract law package:</b>		
Digital content directive	Over to the Bulgarian Presidency	Lays down certain requirements concerning contracts for the supply of digital content to consumers.
Distance sales of goods directive (now sales of goods)	Over to the Bulgarian Presidency	Eliminates decisive contract law related barriers hindering cross-border trade.
<b>Cybersecurity:</b>		
Cybersecurity strategy	Council Conclusions	The conclusions call for the strengthening of European cybersecurity and enhancing cyber resilience across the EU. The Council also backs the plan to set up a world-class European cybersecurity certification framework to increase trust in digital solutions.
The European Union Agency for Network and Information Security (ENISA) regulation	Over to the Bulgarian Presidency	The aim is to reform ENISA into a stronger EU cybersecurity agency. New tasks and resources will be given to the Agency in order to reflect the new reality and needs of cybersecurity.
The ePrivacy regulation	Over to the Bulgarian Presidency	Ensures a high level of protection for private lives, communications and personal data in the electronic communications sector.
<b>An Inclusive and Sustainable Europe</b>		
Directive on accessibility requirements for products and services	Agreed at the Council of European Union	Helps to make many everyday products and services accessible to people with a disability. Removes and prevents barriers for the free movement of accessible products and services.
Directive on work-life balance for parents and carers	Over to the Bulgarian Presidency	Allows parents and people with care responsibilities to better reconcile their work and care duties by setting up minimum requirements for parental leave, paternity leave, carers' leave and the right to flexible working arrangements.

Regulations, directives, initiatives	Result	Content
Europass	Provisional political agreement with EP	Web-based tool and relevant available information to help people better communicate and present skills and qualifications.
European Solidarity Corps	Agreed at the Council of European Union	Offers young people the opportunity to volunteer or work in beneficial projects across Europe.
Coordination of social security systems (family and long-term care benefits)	Partially agreed at the Council of European Union (unemployment benefits left to the Bulgarian Presidency)	Rules that guarantee that people do not lose their social security protection when moving to another member state.
Posting of workers	Agreed at the Council of European Union	A clear framework to guarantee fair competition and respect for posted workers' rights so that businesses and workers can take full advantage of internal market opportunities.
Future of work	Council conclusions	Conclusions invite the taking into account of the changing and new forms of employment when developing policies. It's important to ensure a high level of social protection to all forms of employment and to encourage employers and employees to invest in skills development.
Health in the Digital Society (eHealth)	Council conclusions	Conclusions encourage the free movement of health data in the EU in order to accelerate digital innovation in healthcare.
Smart youth work	Council conclusions	Conclusions mark digital innovation in youth work and youth policy that help to better reach and engage with young people.
Mobility package (market and social pillar)	Over to the Bulgarian Presidency	Establishes a set of measures to ensure a fair and competitive internal market for road transport.
Waste package	Provisional political agreement with EP	Sets clear targets for the reduction of waste and establishes an ambitious and credible long-term path for waste management and recycling.
EU emissions trading system	Political agreement with EP	Sets a clear methodology of how to reduce greenhouse gas emissions by 43% for 2030 in energy intensive industries.

Regulations, directives, initiatives	Result	Content
Effort sharing regulation	Provisional political agreement with EP	It sets binding national greenhouse gas emission reduction targets for each member state, collectively amounting to a 30% cut in emissions by 2030 (from a 2005 baseline).
Land-use, land use-change and forestry regulation (LULUCF)	Provisional political agreement with EP	Ensures that the accounted emissions from land-use and forestry are entirely compensated by an equivalent removal of CO <sup>2</sup> from the atmosphere through action in the sector.
CE marking fertilising products	Member state agreement for starting negotiations with EP	Clearer standards and requirements for fertilising products, ensuring high safety and environmental protection standards.
Renewable energy directive	Agreed at the Council of European Union	Establishes an overall policy for the production and promotion of energy from renewable sources in the EU, while taking into account the 2030 perspective.
Energy Union governance regulation	Agreed at the Council of European Union	Establishes a governance mechanism to implement strategies to meet the objectives of the Energy Union and to ensure the timeliness, accuracy and comparability of reporting by member states.
Energy performance of buildings directive (the Clean Energy package)	Provisional political agreement with EP	Aims to reduce the energy demand associated with the typical use of buildings.
